

1. Introduction

The International Judo Tournament provides for the duration of the tournament digital support to coaches. For this purpose, a (web-)app has been made available: JudoCoachApp[®]. With this app, coaches can keep track of their pupils throughout the complete process of the tournament.

2. General

The JudoCoachApp provides the following functionalities:

- I. Check if your tournament participants passed the initial weighing procedure;
- II. Check approximate timings and locations of games your participants have been allocated to;
- III. Check status and results of your participants;
- IV. Pop-up notification when a pupil is having an upcoming game.

3. The App

- a. Access to the App is based on the daily provided Tournament Coachcards, and is for use by coaches only.
- b. Players/audience should use the JudoPlayerApp[®] and/or the JudoAudienceApp[®] from the Playstore or the web-app versions at <https://judovenay.nl/playerapp> or <https://judovenay.nl/audience> respectively.
- c. The JudoCoachApp[®] can be accessed through Your mobile telephone network.
- d. You will find the userid and password on Your Tournament Coachcards. Your Club registration person can also retrieve the userid's and passwords from the internet registration environment two weeks prior to the tournament ([Login](#)) → [My Documents] → [JudoCoachApp Accounts].
- e. Note: the uid and password are valid on the provided day only!!
- f. The app uses "push notifications" to notify you when a pupil of yours has an upcoming game. Be sure to enable push notifications on Your mobile device!

4. Security

Access to the JudoCoachApp[®] is based on an 'one machine only' principal. The provided user-id and passwords should therefore **NOT** be passed to others and be used on one mobile phone only, during the provided tournament day.

5. App / download

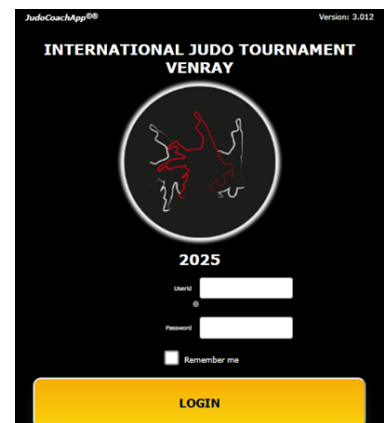

- a. You can access the app directly through: <https://www.judovenay.nl/coachapp>
- b. For Android-users, an App is available which can be downloaded from the Android Play Store: **JudoCoachApp**;
- c. For iPhone-users, an App is available. This App can be downloaded from the Apple App Store: **JudoCoachApp**.

6. Access

Start the App. (or use the web-app at:

<https://www.judovenay.nl/coachapp>)

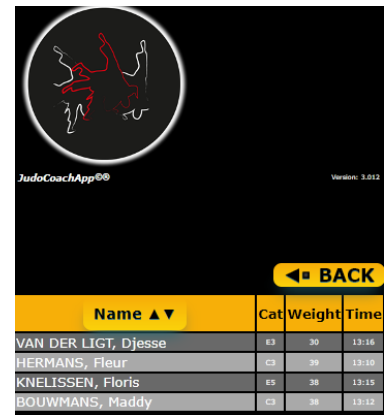

- a. The app login screen will appear;
- b. Enter user-id and password;
 BOTH user-id and password are case-sensitive and uppercase only!
- c. The **Main menu** appears

7. Option: Weight status participants

- a. Shows the status of weighing of the participants. You will see either the time of weighing (weighing completed) or,
- b. red marking if judoka who has not been weighed yet.

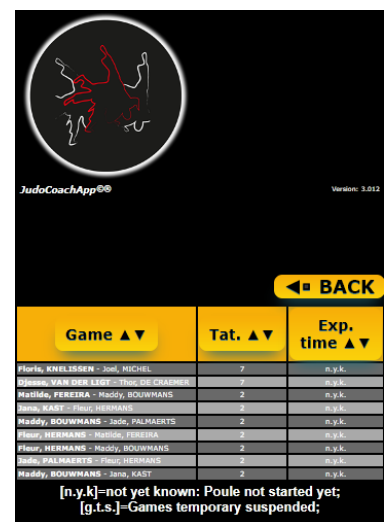

8. Option: Scheduled games

- a. Shows the predicted timings of scheduled next games and their location (tatami) of Your judoka's.
Note: timings are indications based on real-time progress and are subject to changes!

b. Options:

- i. **n.y.k** = **Not Yet Known**: games are scheduled but the involved poule has not yet started on the allocated tatami.
- ii. **g.t.s.** = **Games Temporary Suspended**; games have been stopped.
- iii. **NOW** = current ongoing game at this very moment.

9. Option: All games

Shows not only scheduled games but also results of finished games of Your judoka's.

10. Option: [Tatami Progress]

This option will enable You to view the progress at a certain tatami. Select the required tatami and the app will display the current ongoing games, as well as the next scheduled poules.

The top of the display will contain the games of the current poule. The bottom display will list the participants to the next poule and the predicted/scheduled starttime.

Remember: poules will only be visible after the closure of the weighin.

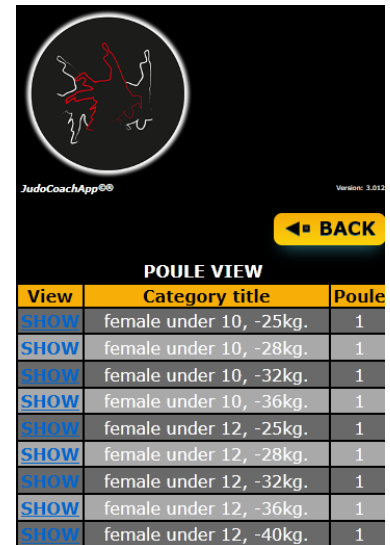

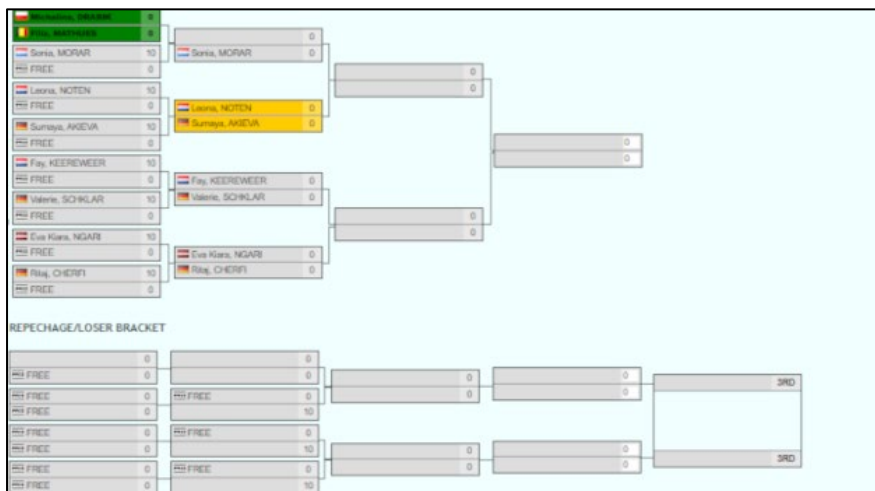

11. Option: [Show Poules]

This option will show all generated poules of the tournament. It will be updated dynamically as the tournament progresses as poules can only be generated if a weighing for a category has been closed.

Select the option and subsequently the required poule.

💡 Remember: Due to their seize, some categories might be composed into multiple poules. If such is the case, that category will contain also a final poule where all winners from the initial poules compete on the final category winners.

You can retrieve a pdf-copy of the selected poule by choosing the option [Get PDF] from the poule display.

12. Option: Privacy Policy

This option will show You our Privacy Policy. Please contact tournament@judovenray.nl if You have any questions regarding our Policy.

13. Warning next game due

The App (not the website version!) will warn the coaches when games of pupils are due. The warning will be broadcasted three games in advance of the involved game. Doing so will enable the coach to show up in time for coaching at the required Tatami....

14. Questions / Suggestions

The IT Support team is located in the Main Hall near the Head jury. Please contact them if You have problems with the App or, suggestions for improvements.
