

1. Introduction

The International Judo Tournament Venray provides for the duration of the tournament digital support to their participants. For this purpose, a (web-)app has been made available: JudoPlayerApp[®]. With this app, participants to the International Judo Tournament Venray can keep track of their games and tatami's throughout the complete process of the tournament, including poule compositions and progress.

2. General

The JudoPlayerApp provides the following functionalities to their participants:

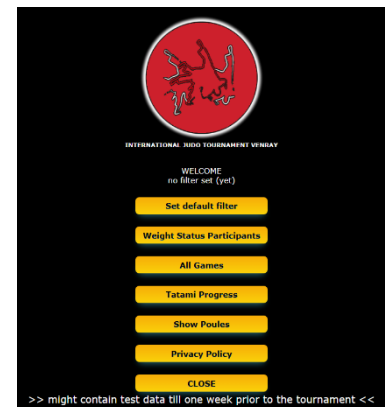

- I. Check if and when your weighing procedure is planned and/or completed;
- II. Check approximate timings and locations of your games;
- III. Check status and results of your games;
- IV. View your poule progress and all tournament results.

3. The App

- a. The App is available in the Playstore and/or AppStore.
- b. A web-app version is available at <https://judovenay.nl/playerapp>.
- c. The JudoPlayerApp[®] can be accessed through Your mobile telephone network.

4. Access

- a. Start the App or use the web-app at:
<https://www.judovenray.nl/playerapp>
- b. The **Main menu** appears:

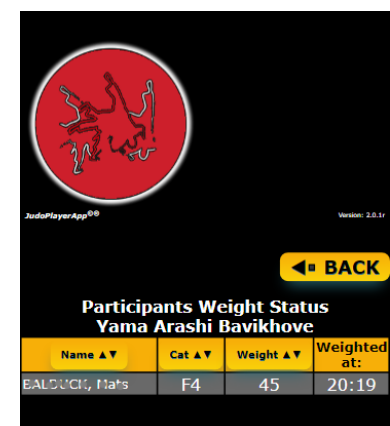

5. First Action

- a. Firstly, access the option [Set Default Filter] in order to select Your name.
- b. Once You selected Your name, You can continue to use the options of the main menu.
- c. Note: The app will not show all data if You have not selected a name!

6. Options: [Weight Status Participants]

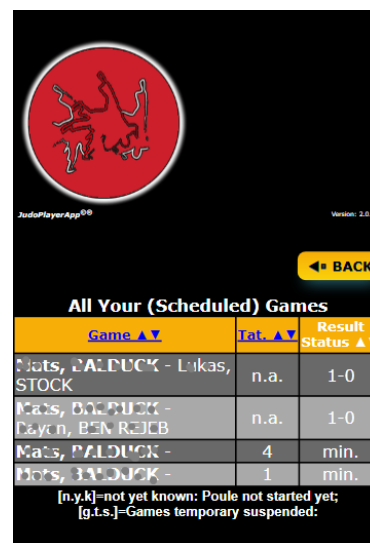

Shows the status of weighing of the participant. You will see either the time of weighing when weighing has been completed or a red marking if judoka has not been weighed yet.

7. Option: [All Games]

- a. Shows the game results and predicted timings of scheduled next games and their location (tatami);
Note: timings are indications based on real-time progress and are subject to changes!
- b. Options:
 - i. **n.y.k** = Not Yet Known: games are scheduled but the involved poule has not yet started on the allocated tatami.
 - ii. **g.t.s.** = Games Temporary Suspended; games have been stopped.
 - iii. **NOW** = current ongoing game at this very moment.

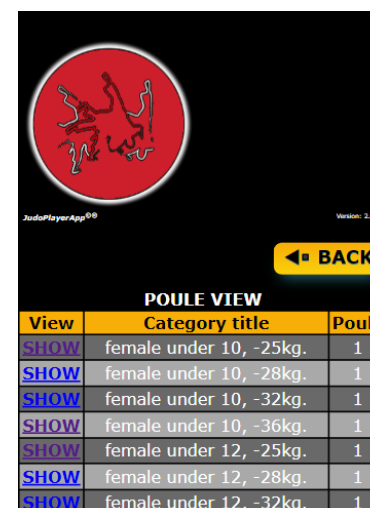

8. Option: [Tatami Progress]

This option will enable You to view the progress at a certain tatami. Select the required tatami and the app will display the current ongoing games, as well as the next scheduled poules. The top of the display will contain the games of the current poule. The bottom display will list the participants to the next poule and the predicted/scheduled starttime.

9. Option: [Show Poules]

This option will show all generated poules of the tournament. It will be updated dynamically as the tournament progresses. Select the option and subsequent the required poule. Remember: Some categories can comprise more than one poule and, if such is the case, will contain also a final poule. You can retrieve a pdf-copy of the selected poule by choosing the option [Get PDF] from the poule display.

10. Option: Privacy Policy

This option will show You our Privacy Policy. Please contact tournament@judovenray.nl if You have any questions regarding our Policy.

11. Questions / Suggestions

The IT Support team is located in the Main Hall near the Main jury. Please contact them if You have problems with the App or, suggestions for improvements.
